Tachimetro Ufficiale watch
by Speedometer Official
Iconic design and a crossed seconds hand.

Original seconds hand divided into four, a cross with the numbered ends from 1 to 4, capable of marking four times simultaneously

45mm round case with soft and satin lines, available in polished and burnished 316L steel, with ceramic effect through DLC treatment

Both the cases boast with black matt dial with cream luminescent indexes and cream dial with black luminescent markers

The bezel comes in different colours and the watch features a MIYOTA movement and a date window at 6 o'clock, distinctive domed sapphire crystal.

The steel case back with screws and a rubber strap is integrated in the handles, with the classic MGT logo

Water resistance of 10 atm. A wristwatch embodying charm, sporty, elegance and with a strong personality

The rubber strap features innate water resistance and great comfort. Soft, flexible and hypoallergenic. It gives to the watch a sporty and adventurous but at the same time classy character.

Following the case material the buckle is available respectively in polished and burnished 316L steel

**TACHIMETRO
UFFICIALE**

The crown on the right hand side of the watch is of the right dimension enabling greater ease of adjustment for both date and time.

**Tachimetro Ufficiale watch
iconic design and a crossed seconds hand.**

A wristwatch embodying charm, sporty, elegance and with a strong personality.

Tachimetro Ufficiale boasts a highly original seconds hand divided into four, a cross with the numbered ends from 1 to 4, capable of marking four times simultaneously: characteristic never seen in the world of timepieces that will make it highly identifiable and unique.

Available in different versions in polished and burnished 316L steel, with ceramic effect through the same DLC treatment as the bracelets, Tachimetro Ufficiale features 45mm round case with soft and satin lines, screw-down crown, either both with black matt dial with cream luminescent indexes and cream dial with black luminescent markers.

The bezel comes in different colours and the watch features a MIYOTA movement and a date window at 6 o'clock, distinctive domed sapphire crystal.

The steel case-back with screws and a rubber strap is integrated in the handles, with the classic MGT logo and steel buckle.

Tachimetro Ufficiale, a well balanced compromise between aesthetics and technique, modernity and tradition and an accurate research for details also clearly visible in the refined packaging. Water resistance of 10 atm.
